PETITION

We the undersigned request that the City of Seattle initiate a Task Force to address increasing serious slides from the hillsides above Harbor and Alki Avenues. The purpose of this Task force would be to develop a plan to:

1. Construct an effective drainage system that allows surface and subsurface water flows to reach Puget Sound

2. Protect city property including streets and utilities

3. Protect local residents from potential property damage and personal injury.

This request is outlined in the October 7 letter from the Alki Community Council to Mayor Mike McGinn and Council President Richard Conlin.
