

Stained Glass Repair

Our friends from Willet Hauser continue to repair our stained glass windows. We discovered many pieces of glass were in dire shape and so was the lead that held them in. Frames and tempered glass for the exterior windows are being made. The work ethic of these craftspeople is amazing! They have put in countless hours, 7 days a week, so that our community can have the restoration it deserves.

TOWER

Our Bell Tower is now secure, although there were many needed repairs discovered along the way. The Parish decided to fix them all now while the project was already underway.

The additional repairs to the structure include: the cross on top, rotted window frames, and rotted drainage pipes. Charter Construction has done exceptional work on this project.

Completion of the project should be in the next 4 weeks.

A special thank you to our parishioners who lent their construction expertise including architectural, engineering, and general contracting. We could not do it without all of you.
