Duwamish Longhouse Safe Streets: Update from Duwamish Tribe and SDOT

Protocol Discussion for D1CN letters of support, etc: All D1CN members

Background of community support letters from Larry: "At our last few D1CN meetings, a major topic of discussion was if D1CN would "officially" support various issues of concern to our community, including signing onto letters. After much spirited debate, it was decided that given D1CN's founding principles and structure that we will not be taking an official position on any issues, signing onto letters, etc. Rather, because we are a "network" of community organizations, community and political leaders, public agency reps, etc. that we will instead forward important issues and requests (such as these contained herein) to everyone within our "network" so the individual community groups, etc. can discuss and decide their respective interest and action themselves.

*Members of our network with issues they wish to be considered by their fellow D1CN members and organizations can either do this individually, or can contact me as Administrator to send them out. I strongly suggest any requests be accompanied by contact information for the person/group making the request to address any further questions. **Because this is a sensitive issue, I invite you to let me know your thoughts, or questions, on this issue, and I will make sure to compile them for discussion at our next D1CN meeting.***
