

December 17, 2020 | UPCOMING SEWER PIPE REPAIR IN YOUR NEIGHBORHOOD

PROJECT DESCRIPTION

Seattle Public Utilities (SPU) is repairing a sewer pipe in your area as part of a citywide sewer rehabilitation effort. This work enables SPU to provide reliable service to our customers. This work was previously scheduled to start in November, but has been delayed to allow the contractor to perform a time sensitive repair elsewhere in the City.

LOCATION

Work will occur on California Ave SW between SW Myrtle St and SW Frontenac streets.

SCHEDULE

The updated construction schedule has this work beginning in early January, and the contractor's schedule indicates that the repair should take about 6-8 weeks to complete. Note, weather, permitting, and other factors may impact the start date and duration. Work will occur during weekday, daytime hours.

ANTICIPATED IMPACTS

Residents and businesses will continue to receive normal services during construction. However, you can expect:

- Increased construction traffic and staging of large equipment in the area.
- Construction noise, dirt, vibrations, and pavement excavation and removal.
- Limited access to adjacent driveways while work is occurring.
- Temporary traffic diversion, bicycle lane closures, and parking restrictions on California Ave SW. Please pay attention to on-site signage and flaggers.
- Once work is complete, the contractor will patch the road and return at a later date to perform permanent restoration.
